PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

WARNING

Causes skin and eye irritation. Prolonged or repeated skin contact may cause allergic reaction in some individuals. Harmful if swallowed or inhaled. Do not breathe vapor for long durations. Do not breathe the vapors from dip applications. Do not eat clothing, shoes, socks, or gloves soaked in the solution. Wash clothing with soap and water before reuse. Do not use with Keen® socks.

Wear chemical resistant gloves, protective eyewear, long-sleeved shirt, long pants, socks and shoes when handling or applying this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Application of this product may produce a strong, lingering, unpleasant odor.

Personal Protective Equipment (PPE)

- Applicators, mixers and other handlers must wear chemical resistant gloves, protective eyewear, long-sleeved shirt, long pants, socks and shoes when handling or applying this product.
- When applying this product to a brush/roller, applicator must wear an organic vapor respirator.
- Some materials that are chemical-resistant to this product are barrier laminate; butyl, nitrile, neoprene and natural rubbers ≥ 14 mils; polyethylene; polyvinyl chloride; and Viton® ≥ 14 mils. If you want more options, follow the instructions for Category C on an EPA chemical-resistance category selection chart.

User Safety Requirements

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, wash all PPE with soap and water after handling the product.

Users must:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside, then wash thoroughly and put on cleaning clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards

This product is toxic to aquatic invertebrates, shrimp and oysters/clams. Do not discharge effluent containing this product into lakes, ponds, streams, oceans, sewers or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewers or wastewater treatment plants without notifying the local sewage treatment plant authority. For guidance contact your state sewage board or regional office of the EPA.

STORAGE AND DISPOSAL

- (For 5 gallon container) Do not combine water, food or feed by storage or disposal.

Pesticide Storage:
Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Do not freeze. Pesticide Disposal: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling:
Nonrefillable container: do not reuse or refill this container. Triple rinse (or equivalent) container promptly after emptying. Pour rinsates into application equipment or a mix tank. Fill the container 1/4 full with solvent and recap. Shake for 10 seconds. Pour rinsates into application equipment or a mix tank or store rinsate from other laundry.

For containers greater than 5 gallons:
Do not combine water, food or feed by storage or disposal. Pesticide Storage:
Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Do not freeze. Pesticide Disposal:
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling:
Nonrefillable container: do not reuse or refill this container. Triple rinse (or equivalent) container promptly after emptying. Pour rinsates into application equipment or a mix tank. Fill the container 1/4 full with solvent and recap. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate from other use or disposal. Repeat this procedure two more times. Then offer for recycling, if available; or reconditioning, if appropriate; or puncture and dispose of in a sanitary landfill; or by incineration.

Keep Out of Reach of Children

WARNING

See Label for additional Precautionary Statements

First Aid

If in Eyes Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
If on Skin or Clothing Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes.
If Swallowed Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by a poison control center or doctor.
If Inhaled Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

NOTE TO PHYSICIAN:
Possible mucosal damage may contraindicate the use of gastric lavage.

Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Net Contents: (1), 5 Gallon Pail

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Notice

Read and understand the entire label before using. Use only according to label directions. Before purchasing or using this product, read Warranty Disclaimer statements found elsewhere on this label. If terms are unacceptable, return unopened package to seller for full refund of purchase price. Otherwise, the buyer/user constitutes acceptance of the terms under Warranty Disclaimer.

Cu-Nap Concentrate treated wood will control and prevent infestation of destroying organisms including subterranean termites, drywood termites, wood destroying beetles, powderpost beetles, carpenter ants and decay fungi. This product may also be used to resist warping, swelling, shrinking, and checking due to its antiseptic property. Wood rot, mildew and mold, and moss. Soil-inhabiting rhizosphere microorganisms used in this product are compatible with other treatments for organisms such as fungi and nematodes. This product is compatible with the majority of treatments for organisms such as fungi and nematodes. This product is compatible with the majority of treatments for organisms such as fungi and nematodes.

A Cu-Nap Concentrate solution containing 1% or 2% copper metal may be used for remedial treatment of standing wood poles, piling and other existing structures. A Cu-Nap Concentrate solution containing 1% or 2% copper metal may be used for remedial treatment of standing wood poles, piling and other existing structures.

Remedial Treatment

A Cu-Nap Concentrate solution containing 1% or 2% copper metal may be used for remedial treatment of standing wood poles, piling and other existing structures. A Cu-Nap Concentrate solution containing 1% or 2% copper metal may be used for remedial treatment of standing wood poles, piling and other existing structures.

Warranty Disclaimer

Copper Care Wood Preservatives, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. To obtain coverage, the buyer/user must comply with all of the following:

1. The buyer/user must follow the directions specifically set forth below.
2. The buyer/user must follow the directions specifically set forth below.
3. The buyer/user must follow the directions specifically set forth below.

Inherent Risks of Use

The directions for use of this product are believed to be adequate and must be carefully followed. It is impossible to eliminate all risks associated with use of this product. Lack of performance or other unintended consequences may result because of such factors as use of the product contrary to the directions, the presence of other chemicals, climatic conditions or the manner of use/application, all of which are beyond the control of Copper Care Wood Preservatives, Inc. The buyer/user assumes all such risks.
