7/8" x 4 1/2"	15/16"	N/A	230 Plugs per Pail	Railroad Construction, Repairs

Typical application requires that a wood plug be 1/16" larger than the hole.

Poles, Inc. also provides treated hardwood plug sizes that are not listed above. If you are looking for a size that is not in our inventory, please contact Randy Gross, (719) 685-0444.

Our plugs are produced using a number of hardwood species. Plugs are treated with either Copper Naphthenate, CCA or ACQ.
